

Jose Alberto Borrego Paez

Full Stack Software Engineer | React · Angular · Node.js · AWS · AI Integration

josbor.dev@gmail.com · +58 412-407-9948 · Venezuela (Remote) · LinkedIn · GitHub · Website

PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience building scalable ERP systems, SaaS platforms, and AI-integrated solutions. Proven track record leading end-to-end development of complex modules in production environments (79+ tickets resolved). Expertise in React, Angular, Node.js, and AWS cloud services (S3, Lambda, AppSync). Passionate about clean code, performance optimization, and delivering intuitive UI/UX experiences aligned with business goals. Experienced in Agile/Scrum teams and remote collaboration.

WORK EXPERIENCE

Full Stack Developer

Mar 2025 – Present

Defontana · Enterprise ERP (Latam) — Remote

- Led development of the Budget Module from scratch (~50 tasks): full CRUD lifecycle (monthly/annual), comparative and chronological reporting, bulk data import, and multi-accounting with multi-currency support.
- Built report system with preview, advanced filters, Excel download via S3 pre-signed URLs, and zero-balance toggle.
- Developed bulk import pipeline: S3 upload → AWS Lambda async processing → AWS AppSync + Amplify real-time polling → visual progress feedback.
- Integrated AI-powered assisted budget entry, compatibility validation, model training notifications, and predictive reporting features.
- Implemented real-time AWS AppSync subscriptions for automatic UI refresh after AI processing.
- Delivered Approval Flow Module (OC & RIM, ~15 tasks): CRUD operations, state transitions, amount-range validation, reset endpoints, and onboarding tours using reactour.
- Migrated cascade balance recalculation endpoint to AWS Lambda URL for improved scalability and performance.
- Resolved ~10 production bugs involving deletion issues, form validation, duplicate requests, and decimal precision handling.

Stack: React · Node.js · REST APIs · AWS (S3, Lambda, AppSync, Amplify) · GraphQL · Figma · Jira · Agile

Frontend Developer

Aug 2022 – Dec 2024

Marxa Digital — Remote (Mexico)

- Built loyalty module with smart appointment scheduling synchronized to customer registration dates, including maintenance reminders and observations.
- Redesigned company platform with a mobile-first approach, improving load speed by 35% through lazy loading and optimization techniques.
- Migrated CSS architecture to Tailwind CSS, improving component reusability and reducing stylesheet overhead.
- Developed sales analytics application using ChatGPT API and Node.js cloud functions for Excel analysis and inventory prediction.
- Refactored import modules to support XLSX and CSV formats with improved parsing logic.
- Built adaptive chatbot conversation flows using Botpress.

- Fixed critical ERP bugs, reducing system-wide errors by 20%.
- Participated in Agile/Scrum ceremonies including standups, sprint planning, and demos.

Stack: Angular · TypeScript · Tailwind CSS · Firebase · Node.js · RxJS · Angular Material · REST APIs · Botpress

Full Stack Developer

May 2019 – Jun 2020

Grupo KFC — Quito, Ecuador

- Developed automated printing modules using optimized SQL queries and PHP scripts, improving operational efficiency.
- Redesigned personnel management system interface to improve usability and visual consistency.
- Upgraded reporting modules with React and Node.js, improving UX and report generation speed.
- Created reusable stored procedures to accelerate development of new modules.
- Improved frontend-backend communication through optimized SQL queries and API interactions.

Stack: React.js · Node.js · PHP · SQL Server · JavaScript · Git

IT Intern

Jul 2014 – Nov 2014

SENIAT (Tax Authority) — Valencia, Venezuela

- Designed and executed database migration from legacy un-normalized systems to scalable relational models.
- Developed backend transaction and reporting integrations.
- Built user-facing modules and provided remote/on-site support for end users.

TECHNICAL SKILLS

Languages: JavaScript · TypeScript · PHP · SQL · HTML · CSS · SCSS

Frontend: React · Next.js · Angular · Redux · RxJS · React Native · Tailwind CSS · Material UI · Angular Material · Sass · Responsive Design

Backend & APIs: Node.js · REST APIs · GraphQL · Express.js

Cloud & DevOps: AWS S3 · AWS Lambda · AWS AppSync · AWS Amplify · Firebase

AI & Automation: ChatGPT API · Predictive Model Integration · AI-assisted UX · Botpress

Tools & Methods: Git · Figma · Jira · Confluence · Scrum/Agile · reactour

Databases: SQL Server · Firebase Firestore

EDUCATION

Systems Engineering — B.Sc.

Nov 2010 – Dec 2015

National Experimental University of the Armed Forces (UNEFA) — Venezuela

LANGUAGES

Spanish: Native | **English:** B2 — Upper Intermediate
